

Board of Corrections
January 29, 2009 Meeting

Prisoner Boarding Rate Discussion:

Transition Period Options: Short Term (From adoption to June 30, 2009)

- State and County Board Rates would not exceed the marginal cost rate.
- Present practice stays in place – Counties set board for county and other non-state prisoners. State remains at marginal cost rate.

Biennial Budget Period Options: Long Term (FY10, FY11, and beyond)

- State and County Board Rates would not exceed the marginal cost rate.
- Present practice stays in place – Counties set board for county and other non-state prisoners. State remains at marginal cost rate.
- Board adopts position that there be NO board rates for system participants. Federal and other outside of system board rates mandated to be negotiated at the highest possible rate.

Note: The CWG recommends immediate action on requiring that Federal board rates not be less than the amount required as part of any Intergovernmental agreement.
